

LCD3770A

Bracket for LCD monitor

Wall installation

30° Inclination 180° Rotation

Wall separation 60~473 mm

Maximum load 50 Kg

Screens 37"~70"

Standard LCD monitor bracket, suitable for wall-mounting.

Allows for a separation of at least 60~473mm between the wall and the monitor. It supports a maximum load of 50 Kg. It is compatible with VESA 200x200, 400x200, 300x300, 400x400 and 600x400 mm standards, and thereby supporting all screens based on this standard. Typically screens of 37" to 70". Once installed the monitor can be vertically inclined between -20° and +10° and also rotate horizontally by 180°.

Specifications

Supported VESA standards	200x200, 400x200, 300x300, 400x400, 600x400 mm
Supported screens	37" ~ 70"
Maximum load	50 Kg
Inclination	-20° ~ +10°
Rotation	180°
Wall separation	60 ~ 473 mm
Mounting	Wall
