

NV-SOLAR5V-3W

Nivian

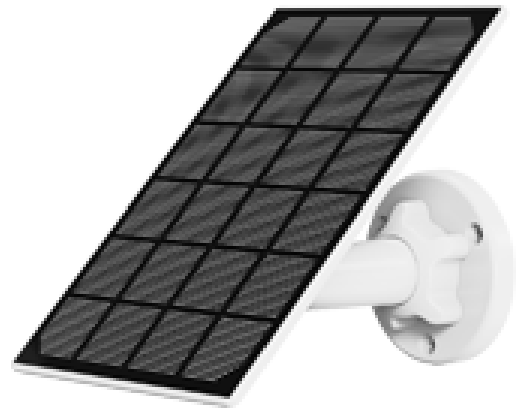

Solar panel of 3W

For battery operated IP cameras

High efficiency monocrystalline

Micro USB output DC5V

Weatherproof IP65

Nivian

Solar panel for battery powered IP cameras and PIR sensor

Exclusive for battery operated cameras with DC5V power input

High-efficiency monocrystalline silicon technology

Nominal power 3.3 W

Micro USB connector

Cable length 3 m

Bracket 360° included

Weatherproof IP65

Dimensions 174x 121 mm

Specifications

Brand	Nivian
Compatibility	IP cameras with integrated battery, PIR sensor and DC5V Micro USB power supply
Capture technology	Monocrystalline silicon
Efficiency	>19.5%
Nominal power	3.3 W
Open circuit voltage	>7.2 V
Operating voltage	>6 V
Operating current	>540 mA
Short circuit current	>560 mA
Connector	Micro USB
Cable length	3 m
ENVIRONMENT	Suitable for outdoor use / Waterproof IP65
Dimensions	174 (H) x 121 (W) mm
